SUMMARY

I am a Computer Science student at Parul University specializing in AI and Machine Learning, also pursuing a Dual Degree in Business Analytics. I have worked on academic and personal projects using Python, FastAPI, Flask, SQL, and PostgreSQL, with an interest in backend and full-stack web development. Seeking a Full Stack Developer Internship where I can apply my skills, learn from experienced professionals, and contribute to real-world projects.

EDUCATION

Bachelor of Technology – Computer Science & Engineering AI-ML **2023 – 2027**
Parul University, Vadodara | CGPA: 7.35/10

Class XII (Science) – Pratap College, Amalner | 72.00% **2023**

Class X – G.S High School, Amalner | 84.00% **2021**

TECHNICAL SKILLS

Languages: Python, Java , SQL
Backend & Frameworks: FastAPI, Flask, REST APIs, API Integration, Authentication
Databases: PostgreSQL, MySQL, MongoDB, SQLite
Cloud & Tools: AWS, Git, GitHub, Docker, Postman, Linux, VS Code
Core CS: Data Structures & Algorithms, Object-Oriented Programming , Operating Systems, DBMS
Development: Git Workflow, Agile Methodology, CI/CD (Basics), Software Development Lifecycle (SDLC)
Applied AI: LangChain, LLMs, RAG, ChromaDB, PyTorch, NumPy, Pandas, Scikit-learn

ACADEMIC PROJECTS

Traveloop – AI Powered Travel Planning Application **2026 – Present**
Tech: Next.js, FastAPI, LangChain, PostgreSQL

- Developed a full-stack AI-powered travel planning application for itinerary generation, trip management, and expense tracking. Integrated LLM-based travel recommendations and a RAG chatbot using LangChain to deliver personalized and context-aware travel assistance.
- Built scalable REST APIs with FastAPI and PostgreSQL for secure data management and seamless frontend-backend communication. Designed the application with a modular architecture to support future integrations such as hotel booking, maps, and flight recommendations.

QuickNotes AI – RAG-Based Video & PDF Assistant **2026 – Present**
Tech: FastAPI, React, LangChain, Whisper, ChromaDB

- Developed an AI assistant that converts YouTube videos and PDF documents into searchable knowledge using Whisper and Gemini LLM. Implemented a RAG pipeline with LangChain, ChromaDB, and Hugging Face embeddings for context-aware question answering.
- Built FastAPI-based backend services for document processing and semantic search, improving response accuracy and enabling efficient retrieval of information from uploaded content.

AI Virtual Try-On System **2025 – Present**
Tech: Python, OpenCV, MediaPipe

- Developed a real-time virtual try-on system using OpenCV and MediaPipe for body pose estimation and garment alignment. Optimized the image processing pipeline to deliver smooth, accurate, and interactive virtual clothing visualization.
- Applied computer vision techniques to improve clothing alignment across different body poses, enhancing the overall user experience for online shopping applications.

Expense Tracker Application **2025**
Tech: Python

- Developed a Python-based expense tracking application to record and categorize daily expenses. Implemented automated summaries with a modular architecture for efficient expense management.

CERTIFICATIONS

Generative AI for All – Microsoft | LLMs, Prompt Engineering **2026**
Artificial Intelligence Fundamentals – IBM | ML Concepts, Data Processing **2025**
AWS Academy Graduate – Cloud Foundations | Cloud Computing Basics **2025**

ACHIEVEMENTS & ACTIVITIES

- **Capgemini Exceller AgentifAI Buildathon 2026** – Competed with team Navi_Gen under the theme "AI for All– Human, Inclusive, and Sustainable"; cleared Pre-Qualification and Elevator Pitch rounds.
- Solved **200+ DSA problems** on LeetCode in Java and Python through consistent daily practice.
- **Student Representative**, Parul University (2025–Present) – Bridge between students and university administration; manage hostel MFF operations including coordination, records, and mess management.
- **Active Member**, Swadhyay Parivar Yuva Kendra – Regular participation in youth leadership sessions focused on discipline, communication, and value-based learning.
